DETAILED ACTION

REASONS FOR ALLOWANCE

Claims 17-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose the combination of the process steps for fabricating a leadframe recited in the base claims 17 and 22, including the combination of the process steps comprising: electroplating a layer of nickel; electroplating a layer of palladium; selectively masking the chip pad and the first segment ends, leaving the second segment ends exposed and plating a layer of gold on the exposed segment ends in a thickness suitable to optimize solder attachment, thereby creating a visual distinction between the gold-plated and unplated leadframe areas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
